Education

Lehigh University – B.S. in Computer Science and Business Bethlehem, P.A.

May 2023

Courses: Blockchain in Algorithms and Systems, Blockchain Concepts and Applications, Systems Software, Software Engineering

Experience

Software Engineer – Nano Human Initiative, Lehigh University

January 2020 – September 2021

- Small undergraduate team lead by Lehigh's Dr. Brian Chen to create a graphic user interface for remote control and viewing of electron microscopes.
- Team leader of four assigned with the task of implementing a custom Python library developed by the manufacturer of Lehigh's electron microscope into our existing website.
- Developed 30+ pages of documentation on state-of-the-art Python library to control electron microscopes.
- Communicated and worked with team located across the globe with 12 hour time differences.

Natural Language Processing Engineer – University of Iceland Reykjavík, I.S.

October 2020 – November 2020

- Learned about Natural Language Processing using PyTorch under Professor Hafsteinn Einarsson.
-

Projects

Solidity Developer – JossToken

September 2021 – Present

- Learned Solidity best practices to develop an ERC-20 token with unique token mechanics.
- Deployed contract using Hardhat environment.
- Implemented Ethers.js library to interact with the smart contract at jossduff.com.

Blockchain Developer – Blockchain Data Structures

October 2021 – Present

- Coding in Rust to create Merkle tree and block data structures to create a mock blockchain.

Full Stack Developer – Buzz

September 2021 – Present

- Worked with small team to develop message board application for software engineering class.
- Practiced agile development with two-week sprints and SCRUM management.
- Worked on the back end with Maven and Heroku, Android front end with Flutter, and as project manager.

Frontend Developer – jossduff.com

January 2021 – Present

- Personal website to display projects created with HTML, CSS, and Bootstrap.
-

Leadership

Vice President – Lehigh Cryptocurrency Club

October 2021 – Present

- Coordinated with Lehigh University to re-instate inactive club.
 - Led educational discussions with students about blockchain and cryptocurrency topics.
 - Organized and planned club meetings and events.
 - Recruited 100+ members.
-

Skills

Solidity, Ethers.js, Hardhat, Rust, C, JavaScript, Git, HTML, CSS, Python, Java, MySQL
